🏢 EMPLOYMENT HISTORY

Software Engineer at MYITEDU, LLC, Brooklyn

January 2019 — Present

Create website back-ends and web services using open-source technologies, particularly PHP.

- Integrate back-ends with existing front ends, using HTML / CSS / AJAX as needed
- Participate in the development process from specification and design through the build to testing, release, and maintenance.
- Break down problems into viable actionable chunks, and solve them with clarity and precision
- Deliver projects according to agreed timescales
- Some basic website-related administrative duties, e.g., SSL and DNS management

Dispatcher at DMWORLDtransportation, Orlando

January 2018 — January 2019

Consultant Internship at Is DB, Tashkent

January 2017 — January 2018

🎓 EDUCATION

Bachelor's Degree, Bangor University, Bangor, UK

September 2014 — June 2018
